Locate a switch: coarse scan, fine grid, equal peak heights
Figure 3.3 reference: coarse interval
201 fine lambda values; separation 83.9%
Peak-height crossing: $\lambda_c = 17.8738$
Selected bandwidth h
Relative peak-height difference (ppm)
λ
Independent sample 98: coarse interval
201 fine lambda values; separation 79.1%
Peak-height crossing: $\lambda_c = 30.6076$
