Process 43, start 2: Passed at 200, then became nonstationary
Full saved trajectory
Final radius = 1.0083
Best estimate's companion spectral radius
Evaluated iteration
Detail around passing and the later crossing
Nonstationary from 256
Pass at 200
radius = 0.9317
Followed throughout
Stationarity boundary (1)
True parameter radius (0.9879)
